

# PROJECT MANAGEMENT: GET PMI® PREPARED

Project Management is a systematic approach to accomplish specific, usually one-time, objectives. Project Management Institute (PMI®) is a globally recognized organization that works with businesses to provide standards in the project management field along with researched methods to meet those standards. Even those not looking to become officially certified by PMI® can benefit from studying PMI's project management strategies and process.

The Project Management Professional (PMP®) credential issued by the Project Management Institute tells current and future employers that you have the skills and knowledge needed to lead and direct cross-functional teams and to successfully deliver projects within the constraints of schedule, time, and scope.

PMI® ensures the quality of its certificate-holders through its credentialing process, which includes an application and multiple-choice exam. The PMI® website lists all of the eligibility requirements along with additional credentialing options at [www.pmi.org/CareerDevelopment/Pages/AboutPMIsCredentials.aspx](http://www.pmi.org/CareerDevelopment/Pages/AboutPMIsCredentials.aspx).

The Project Management Foundations and Project Management Success courses meet the application requirement of 35 hours of project management education. Register for both courses at the discount rate of \$1350, a savings of \$148.

## Courses:

### Project Management Foundations

16 PDU's, \$599

This course provides an overview of the essentials to project management. Outcomes of this course include: being able to define projects and the role of the project manager, understanding the process groups and how they are affected by organizational culture, and employing leadership techniques to assure project success. The price of the course includes the book *Fundamentals of Project Management* by Lewis. This course provides 15 Project Management Institute PDU's and meets 15 of the 35 contact hours required on the PMP® application. This course meets 5 evenings for 3.5 hours each night.

### Project Management Success

19 PDU's, \$899

Project Management Foundations is a recommended prerequisite for this course. Participants should have some project management experience, a desire to increase their knowledge of project management, and potentially achieve the PMP® certification. This course expands on the lessons learned in Project Management Foundations, going deeper into critical project management concepts and tools utilizing real world vignettes and numerous case studies to reinforce concepts and help develop critical thinking. The *PMBOK® Guide* terminology and topics are emphasized to integrate theory with real world application, and begin preparing those planning to take the PMP® exam. Price of the course includes the book *Successful Project*

*Management* by Gido & Clements. This course provides 20 Project Management Institute PDU's and meets 20 of the 35 contact hours required on the PMP® application. This course meets 6 evenings for 4 hours each night.
