About This Guide

This guide contains quick reference information and procedures on how to report and respond to various emergencies.

The purpose of this information is to maintain a continuing state of readiness for the protection of college employees, students, and visitors in the event of an emergency. The information will provide awareness, protect lives and property, preserve the structural integrity of facilities, and ensure continuity of essential services.

Please review this information as it will prepare you when a crisis occurs.

To report a crime, emergency, or non-emergency, call NHCC’s Public Safety Office at 763-424-0807. If 911 is called, please notify the Public Safety Office at 763-424-0807.

North Hennepin Community College’s Public Safety Office serves as a critical support function to the college community. Public Safety Officers on campus are authorized to take appropriate action to ensure the safety and security of all students, faculty, staff, and visitors. Public Safety Officers are employed by the college and are trained to effectively respond and resolve incidents on campus in a positive manner. There may be occasions when Public Safety Officer’s responses and resolutions are augmented by local police, fire, and ambulance response units.

Requesting Emergency Support Services
Contact Public Safety at the emergency number 763-424-0807 and 911 for assistance with:

- Fires
- Crimes in progress
- Crisis situations
- Medical emergencies

Requesting Non-Emergency Support Services
Contact Public Safety at the non-emergency number 763-424-0807 for assistance with:

- Escort services
- Basic first aid
- Incident reports
- Unlocking doors
- Lost and found

Requesting Routine Safety and Maintenance Assistance
Contact Facilities at 763-424-0773 for routine safety and maintenance assistance on:

- Room temperature
- Water leak
- Broken items

What to do when you observe criminal or suspicious activity on campus
If you observe a crime in progress, or behavior that you suspect is criminal, immediately notify NHCC Public Safety at 763-424-0807. Report as much information as possible including what the person(s) is/are doing; the location; physical and clothing description of those involved; if weapons are involved and if so, what type; vehicle description and license plate number if appropriate; direction of travel when last seen, etc. Do not approach or attempt to apprehend the person(s) involved.

NHCC Public Safety and/or Brooklyn Park Police Officers will respond to the situation, take appropriate actions, and conduct the follow-up investigation. If you have non-emergency information that you wish to report, you may do so by calling the Public Safety Office at 763-424-0807.
Tornado Warning

A tornado warning means an actual tornado has been identified in the area by spotters and/or radar. Public warning through the Emergency Warning System will sound off a steady, five-minute siren.

1. If in the warning area, seek shelter immediately!

2. NHCC has designated tornado shelter areas. Signs are posted in tornado shelter areas. Maps of each building showing the shelter areas can be found in each building, as well as on pages 22-32 of this guide.

3. As an alternative, basements, interior hallways on the lower floors and small interior rooms on the lower floors offer the best shelter.

4. Stay away from windows and exterior doors.

5. Do not open windows. This can increase damage to buildings.
Weather Emergency

The decision to close or delay opening of the college due to weather or other emergency is made by the President or the President’s designee. Listen to Radio Station WCCO (830 AM), check the NHCC website, or your NHCC email for information regarding class cancellations and other related information. If you are signed up for Star Alert (see page 20), you will receive a text message on your cellphone.

If conditions develop during normal business hours, the President or the President’s designee will inform employees of the emergency and the time of closing. Students will be notified through appropriate student support services and academic offices.

Severe Weather Emergency Evacuation

If severe weather conditions develop:

1. Public Safety will broadcast that the building occupants are to take shelter immediately.

2. All campus occupants should remain calm and quickly move to the nearest lower-level shelter area.

3. Do not use the elevators and stay away from areas with windows or glass, if possible, while going to the designated shelter area.

4. Remain in the shelter area until the “all-clear” is given.

5. Persons with mobility impairments should not try to move up or down stairs, but should find refuge in the safest designated interior space. Persons with visual impairments should seek assistance from another person if needed, when moving downstairs.

Faculty/Staff

Lead the students in your buildings and classrooms to the nearest shelter, and wait for communication from members of the Emergency Response Team or Public Safety Office. Inform the Emergency Response Team or Public Safety Office of any medical needs from the students in your areas.
Fire Emergency

All fire alarms will be considered “life threatening” conditions with no exceptions, including prearranged evacuation test drills. The fire alarms will be activated to alert occupants to evacuate the buildings. No NHCC employee or student will remain in an NHCC facility once the alarms have been sounded.

If smoke or fire is present:

1. Activate the fire alarm by pulling the lever at the nearest building fire pull station. For exact locations of these pull stations, refer to the building maps on pages 22-32 of this guide.

2. Call Public Safety at 763-424-0807 and provide the following information:
   - Your name and telephone number
   - Exact location of the fire
   - What is on fire
   - The size of the fire

3. Do not panic. Keep calm.

4. Do not re-enter the building.

5. If caught in heavy smoke, take short breaths through your nose, stay near the floor, move to an exit by crawling, and cover your nose and mouth with shirt if possible.

Fire alarm sounding and flashing status:

Evacuate the building immediately. Do not stop to call the Fire Department. NHCC’s buildings are fire-panel-monitored for this type of alarm and the Emergency Communication Center is notified automatically.

Persons with mobility impairments should not try to move up or down stairs, but should find refuge in the safest designated interior space. Persons with visual impairments should seek assistance from another person if needed, when moving downstairs.

Faculty/Staff

Lead the students in your buildings and classrooms to the nearest shelter, and wait for communication from members of the Emergency Response Team or Public Safety Office. Inform the Emergency Response Team or Public Safety Office of any medical needs from the students in your areas.
Medical Emergency

In the event of an accident or illness to an employee or student in your work area that results in an emergency, your immediate response should be to:

1. Remain calm.

2. Call Public Safety at 763-424-0807 and provide this information:
   - Your name, location, and phone number
   - The building, floor and room number where assistance is needed
   - Complete information concerning the nature of the accident or illness and the number of persons injured

3. Try to make the person comfortable, without moving them, until emergency personnel arrive.

NOTE: Automatic External Defibrillators (AED’s) are located throughout the campus and may be used by trained personnel if needed. Building maps showing the locations of these devices begin on page 22.
Non-Emergency Spill

*This is a spill that presents no hazard to people or the environment.*

1. Incidental release of a chemical substance where the substance can be absorbed, neutralized, or otherwise controlled at the time of the release by employees in the immediate area are not considered emergencies within the scope of Occupational Safety and Health Administration (OSHA) standards.

2. Contact Public Safety at 763-424-0807 and they will respond, assess, and resolve the spill incident.

Emergency Spill

*This is any spill that can present a hazard to people or the environment.*

1. Contact Public Safety at 763-424-0807. Provide your name and location.

2. Do not attempt to clean the spill unless you have been properly trained to do so.

3. Evacuate the spill area as appropriate.

If the spill is affecting a whole building, follow the evacuation routes located on the maps on pages 22-32.
Good Practices for Coping with an Active Shooter Situation

- Be aware of your environment and any possible dangers.
- Take note of the two nearest exits in any facility you visit.
- If you are in an office, stay there and secure the door.
- If you are in a hallway, get into a room and secure the door.
- As a last resort, attempt to take the active shooter down. When the shooter is at close range and you cannot flee, your chance of survival is much greater if you try to incapacitate him/her.

CALL 911 WHEN IT IS SAFE TO DO SO!

How to respond when an active shooter is in your vicinity

Quickly determine the most reasonable way to protect your own life. Remember that students are likely to follow the lead of faculty and staff during an active shooter situation.

1. RUN: Evacuate the area
   - If there is an accessible escape path, attempt to evacuate the premises.
   - Call 911 when you are safe.

2. HIDE: Secure yourself in a safe place
   If evacuation is not possible, find a place to hide where the active shooter is less likely to find you. Your hiding place should:
   - Be out of the active shooter’s view.
   - Provide protection if shots are fired in your direction (i.e., an office with a closed and locked door).
   - Not trap you or restrict your options for movement.

   To prevent an active shooter from entering your hiding place:
   - Lock the door.
   - Blockade the door with heavy furniture.
If the active shooter is nearby:

- Lock the door.
- Silence your cell phone and/or pager.
- Turn off any source of noise such as radios or televisions.
- Hide behind large items such as cabinets or desks.
- Remain quiet.

If evacuation and hiding out are not possible:

- Remain calm.
- Dial 911, if possible, to alert police to the active shooter’s location.
- If you cannot speak, leave the line open and allow the dispatcher to listen.

3. FIGHT: Take action against the active shooter

As a last resort, and only when your life is in imminent danger, attempt to disrupt and/or incapacitate the active shooter by:

- Acting as aggressively as possible against him/her.
- Throwing items and improvising weapons.
- Yelling.
- Working as a team with others.
- Committing to your actions.

Remember:

| RUN | HIDE | FIGHT |
Evacuation

If a building evacuation is declared by the fire department, police, or administration, please leave the building area as directed. Do not linger in the hallways or on the sidewalks near the building. Do not re-enter the building until the Public Safety Office or Administration gives the “all clear.”

Should a partial or full building evacuation become necessary, the Public Safety Office and Emergency Response Team will direct the evacuation. In case of fire, the emergency sirens will sound. Please follow the maps on pages 22-32.

Do:

- Listen for announcements over the building emergency paging system or directions from the Public Safety Office.
- Follow the evacuation route signage located throughout campus and in this Guide.
- Watch for firefighters and police coming to handle the emergency and follow their directives.
- Remember that orderliness and cooperation are more important than speed.
- If caught in heavy smoke, take short breaths through your nose, stay near the floor, and move to an exit by crawling, and cover your nose and mouth with shirt if possible.

Do not:

- Attempt to fight fire unless trained to do so.
- Use elevator.
- Run, push, or create panic.
- Return to your office until the “all clear” is given by Public Safety.

To know how to evacuate each specific building, please refer to the maps throughout campus and on pages 22-32 of this guide.
Campus Lockdown Procedures

Goal/Purpose of Lockdown: The purpose of a lockdown is to stabilize access to and from rooms on campus to reduce the risk of injury or danger to faculty, staff, students or visitors.

Decision to Lockdown: A lockdown would be implemented when requested by the Public Safety Office, law enforcement, fire department, campus administration, or any staff member with confirmed information.

Incidents Requiring a Lockdown: Person(s) armed with firearms or weapons on campus property, gunshots directed at or near the college campus, police incidents involving dangerous person(s) that are adjacent to or within a short distance of the campus, intruders, hazardous chemical spills, gas leaks, electrical conditions, or disasters close to the college campus. These examples are not absolute, but reflect the type of situation that may require a lockdown.

General Lockdown Procedures

The following announcement will be broadcasted:

“This is a lockdown, repeat, this is a lockdown. We have an emergency. Go to the nearest office or classroom and secure yourself inside.”

In the event of a command to lockdown:

1. Close all doors and lock, if possible.
2. Turn off all lights and unnecessary equipment.
3. Instruct students to remain calm and quiet as possible.
4. Stay away from windows.
5. Do not leave until notified by emergency personnel.

Faculty and staff who are with students at the time of a lockdown may assist with accounting for those students and ensuring that no one leaves the safe area. Students who are not with faculty or staff at the time of a lockdown should be directed to the nearest classroom.

When the condition causing the lockdown has been eliminated, an “all clear – lockdown is over,” announcement will be made over the campus paging system by the Public Safety Office.
Telephone Threats

Bomb and terrorist threats are typically just threats. However, each situation should be considered individually. In the event of such threats, remain calm. Gather as much information as you can to assist the Public Safety Office and the Police Department Bomb Unit in evaluating the level of risk of the caller.

Use the Bomb Checklist on the following page to obtain information from the caller, or to document what you remember was stated if the caller hangs up.

1. Call Public Safety at 763-424-0807 and give the following information:
   - Your name, location, and phone number
   - Nature of the threat or emergency state
   - Exact threat statement of caller
   - Time parameters stated by the caller
   - Exact building address of the stated threat
   - Your telephone number

2. Notify your supervisor or administration immediately.

3. Do not touch any suspicious objects.

4. Do not evacuate unless told to do so by proper authorities.
# Telephone Checklist for Bomb Threat

If you receive a bomb threat, remain calm. Have a prearranged signal alerting your supervisor to pick up the phone and monitor the call. If possible, record the message. Inform the caller that the bomb may injure innocent people.

**Ask the caller the following questions and obtain as much information as possible.**

Where is the bomb? ____________________________________________________________________

When (what time) is the bomb set to go off? ________________________________________________

What does the bomb look like? ____________________________________________________________________

What kind of package or box? ________________________________________________________________

What kind of bomb is it? ________________________________________________________________

What will cause the bomb to explode? __________________________________________________________

Why did you set the bomb? ________________________________________________________________

Exact wording of the call: ____________________________________________________________________

Number at which call was received: ____________________________________________________________

Time of call: __________________ Length of call: __________________ Date of call: __________________

**Judge the voice:**
- Man
- Woman
- Child
- Loud
- Soft
- Deep

Position: __________________________________________________________________________________

Signature of person receiving call: __________________________ Date ____________________________
Dealing With Hostile and Angry Customers

Some NHCC employees, students, and guests react with anger because of difficulty in finding help with their situations, emotional pain or discomfort, fear, and anxiety.

1. React and respond to the individual in a calm, but firm manner.

2. Use a lower volume voice to help the customer calm down.

3. Listen to all demands, but do not tolerate abusive behavior.

4. Respond with commanding statements in a firm, but non-challenging tone, saying what you want or do not want. “I understand that you are upset.” “It sounds like you really are angry about this.” “I do not want to argue with you.” “I want you to leave.”

6. Think over situations that could occur and how you would react. Go through the movements you would need to make to get help, or get out of the situation. Practice. One strategy might be to keep a desk, chair, or other object between you and the person to keep distance.

7. If you anticipate problems with an individual, let co-workers and Public Safety know about it ahead of time.

8. If you feel you may be in jeopardy, safely remove yourself from the danger and notify Public Safety at 763-424-0807.

9. If you observe a hostile confrontation in progress, do not get involved. Calmly and safely move away from the area if possible. Once clear, call Public Safety at 763-424-0807 and 911 if necessary.

10. Completely describe what you observed, how many individuals were involved, physical descriptions of those individuals, and the exact location of the activity.
Theft of Personal Belongings

Theft of personal belongings such as purses, wallets, laptops, PDAs, and keys is a serious problem. Thieves know just where to look and can be in and out of your workspace in a matter of minutes. They may try to access your workspace by asking to use a restroom, looking for directions to a specific location, or may even be a co-worker.

1. Never leave your belongings unattended, even for a moment.

2. Lock your belongings somewhere secure, such as a desk drawer or file cabinet, if you cannot take them with you.

3. Lock your office door every time you leave the office unattended.

4. Do not bring any more cash than you need for the day.

5. If you need to carry credit cards, make sure you inventory them, listing card numbers and phone numbers to call in the event of their theft. (Suggestion: on one sheet of paper make a photo copy of your driver’s license, blank check, and all credit cards.) Keep this list or photocopy in a safe place.

6. Be alert to anyone who tries to get you to leave your desk for errands. For example, some thieves pose as clients and try to get you to go to another room for something. Do not leave your desk unattended. If this is unavoidable, lock your desk before you walk away from it.

7. Be alert to all people in your workspace. If you see someone you do not know, unaccompanied by a co-worker, offer the “Friendly Challenge” found on page 17.

8. If theft occurs, immediately report the crime to the Public Safety Office at 763-424-0807. Immediately call your credit card companies and bank to report the theft. Extreme amounts of financial charges can be placed against your accounts within minutes of the theft.
Tips on Preventing Auto Theft and Theft from Auto

1. Lock your car doors and close your windows.

2. Do not leave valuables in your car. If you do, make sure they are kept out of plain sight. Hide your belongings, or better yet, lock them in your trunk.

3. When transporting valuables, place them in the trunk before you get to the location where you intend to park. Do not transfer them at the parking place in open view of others.

4. Do not leave your garage door opener on the dashboard or front seat. Put it in your glove box, hide it, or take it with you.

5. When you leave your car, put aftermarket audio systems in the trunk or take them with you.

6. Mark aftermarket audio systems, cell phones, batteries, wheel covers, and tires with an operation identification number. If the stolen item is found later, the number can be traced back to you. Please reference your local community to enroll in an Operation ID program.

7. Remember: briefcases, sunglasses, clothing keys, gym bags, and small change are all tempting to a thief.

8. Leave only the ignition key with the parking attendant in a commercial parking lot.

9. Keep your driver’s license and vehicle registration with you. If left with the car, the documents can be used by a thief to impersonate you when transferring the car’s ownership.

10. Car keys left at home (or at your business) should always be hidden. This will help prevent the theft of your vehicle if you are burglarized.

11. There are locks made for various parts of cars. Battery locks, wheel locks, and special tape deck locks can save these items, and may prevent damage that may occur in the process of stealing them.

12. Install a gas tank cap lock to help prevent gasoline theft.

13. Park the front wheel turned sharply to the right or left, making it difficult for a thief to tow your car away backwards.

14. For cars with front wheel drive cars, pull on the emergency brake and place your vehicle in Park when parking. For cars with stick shifts, pull on the emergency brake and shift into forward or reverse gear. All four wheels will be locked, making it difficult for a thief to tow your car.

15. Call Public Safety at 763-424-0807 as soon you realize a theft has occurred.
The Friendly Challenge

If you see someone you don’t know, offer a friendly challenge. The easiest way is to simply ask, “May I help you?” If the person is a legitimate client, you will then be able to escort the client where he or she needs to go, provide directions, or phone ahead to the person or office that the individual is inquiring about. The more detailed assistance you offer will improve services to the legitimate client and will act as a deterrent to the individual with ulterior motives.

The person with a motive to commit a crime has now received the message that they can be identified. In most cases, suspicious individuals will leave as soon as they know they have been observed. If not, you may ask for identification, or go to the nearest phone or NHCC Public Safety callbox and call the Public Safety Office at 763-424-0807.

Campus Compliance and Security Report

NHCC encourages all students, employees, and community members to be fully aware of the safety issues on and around the campus, and to take action to prevent and to report illegal and inappropriate activities. Personal awareness and applying personal safety practices are the foundation of a safe community.

Each year NHCC’s Public Safety Office creates and publishes an annual Campus Compliance and Security Report offering three years of campus crime statistics. The Crime Awareness and Campus Security Act requires that this report include information about particular types of crimes that occur in and around NHCC campus properties. This report also includes policy statements, program descriptions, and procedures to follow in response to criminal activities. A copy of this report can be obtained by calling the Public Safety Office at 763-424-0807, or by visiting NHCC’s website at www.nhcc.edu/safety.
Tips on Personal Safety in Parking Lots

Before you park:
- Put valuables and packages in the trunk or out of sight before you arrive at your destination.
- Drive with your car doors locked and windows closed.
- Keep your wallet or purse out of view while driving. Do not leave them next to you on the seat.
- Look for well-lit areas to park your vehicle. This increases the chance of vandals or thieves being seen.

After you park:
- Do not get out of your vehicle if you see someone lurking nearby.
- Do not sit in your car with the windows down or the doors unlocked.
- Do not leave any valuables where they can be seen from outside the car.
- While walking to your destination, display a confident and positive attitude.
- If someone tries to break into your car, honk the horn repeatedly.

When returning to your car:
- If possible, return to your car with an escort or in a group.
- Have your car door key in your hand.
- Look around and inside your car before you unlock the door and get in.
- Once inside the car, lock your door and start your engine. Start moving the car as soon as possible after you have become situated.
- If you are being followed while driving, go to the closest police or fire station and honk the horn, or drive to an open business or gas station where you can safely call the police. Do not drive home or pull over to the side of the street.
- Return to an area of safety if you see anyone suspicious near your vehicle.

NOTE: Call Public Safety at 763-424-0807 if you’d like an officer to escort you to your vehicle, or from your vehicle to your building.
How to Deal with Questions from the Media

North Hennepin Community College strives to cooperate with the media by accurately responding to inquiries and communicating in a manner consistent with our mission and values. It is essential that comments to the press and the public are as accurate and timely as possible.

In the event of an emergency, members of the news media may call or come to campus to interview people about the incident.

As an employee, we ask that you not speak to news media about any NHCC-related incidents. In response to a reporter’s inquiry, it’s always best not to say “no comment,” but instead respond with, “our communications office will get back to you with more information shortly.”

If contacted by a representative of the news media, follow these steps:

1. Remain calm, and request the following information:
   - The journalist’s name, phone number, and email address
   - The name of the organization he/she represents
   - The type of information he/she is seeking
   - The reason he/she would like the information

2. Politely say the following:

   I am not authorized to speak on behalf of the college, but I’m happy to direct you to our Communications Office. They will have the most current and correct information. Their number is 763-424-0852 and their email is communications@nhcc.edu.

3. Call the Communications Office at 763-424-0852 and give them the information you collected. This will help them prepare to respond to the inquiry when it reaches them.
Star Alert: NHCC’s Emergency Alert System

When you become an employee of NHCC, we ask that you sign up for Star Alerts. These are text messages sent to your mobile phone and emails sent to your NHCC email account.

Star Alerts are free. However, normal text messaging charges from your mobile phone service provider may apply. If you have free or unlimited texting as part of your plan, no additional charges should be incurred. Alerts sent from NHCC will originate from 69310 for text messages and 763-488-0488 for phone calls.

Star Alerts will be sent in the event of an emergency, such as campus closings, power outages, severe weather announcements, or any incident that may impact campus operations.

NHCC officials may test the system at least three times each semester. Every effort will be made to notify subscribers that these alerts are a test. Please remember to keep your mobile number and email address updated in the system.

The following information is required to sign up for Star Alert: name, mobile phone number, and NHCC email address. You may also enter more than one mobile phone number and you may enter additional personal email addresses. Faculty and staff may also enter their office location (building) on campus to receive building-specific emergency messages.

To deactivate your subscription to Star Alerts, text “stop” to 69310.

Subscribers’ contact information will be used only for NHCC emergency notifications and will not be shared or sold to third-party groups.

Do you have to subscribe to the NHCC Star Alert Emergency Notification System?

Students, parents, faculty, and staff are not required to subscribe to the NHCC Star Alert Notification System. However, we strongly encourage you to take a few minutes to do so.

If you choose not to subscribe to NHCC’s Star Alert Emergency Notification System, you will not receive an emergency alert on your mobile phone via text message. You may continue to receive messages via your college email account, the college website, and social media, as well as through local media sources.
On the following pages are North Hennepin Community College’s

**Building Maps for Emergencies and Evacuations**
