Minnesota Law (M.S.135A.14) requires that all students born after 1956 and enrolled in a public or private post-secondary school in Minnesota be immunized against diphtheria, tetanus, mumps, and rubella, allowing for certain specified exemptions (see below). This form is designed to provide the school with the information required by the law and will be available for review by the Minnesota Department of Health and the local community health board.

Enter the dates of each of the vaccinations below. Your vaccine for measles, mumps, and rubella must have been after 12 months of age. Your booster for diphtheria and tetanus must be within the last 10 years.
