About the Student Fact Book

The North Hennepin Community College (NHCC) Student Fact Book aims to serve as a reference tool to provide general information about the college for use in planning, assessment, grant writing, preparing reports, and other projects.

The data provides the most recent fiscal year completed and, in most cases, looks back nine years. Most of the data is provided by fiscal year (July 1-June 30), however calendar year (January 1-December 31) and cohort tracking (Fall 20XX) is also utilized and noted as such. Operational data reported here for 2021 is subject to modification in future updates.

Care has been taken to align the data in the fact book to other Minnesota State Colleges and Universities System reports. Despite these attempts the data may still differ slightly from other college or system reports due to use of different sources, reporting time periods, reporting dates, or data definitions. Please refer to the Glossary for definitions of terms.

Please contact NHCC Institutional Research and Effectiveness Office staff with questions or concerns about the data reported in the Fact Book.

NHCC Mission and Strategic Directions

Mission

Engaging Students, Changing Lives

North Hennepin Community College creates opportunities for students to reach their academic goals, succeed in their chosen professions, and make a difference in the world.

Vision

Opportunity without limits, learning without end, and achievement beyond expectation

Strategic Directions

Branding

The goal of branding is to define and articulate who we are as a college and our relationship within the broader community.

Community Partnerships

The goal of community partnerships is to become a trusted and valued partner in the region and state, integrated into the fabric of the community and regarded as a respected community asset.

Comprehensive Student Experience

The goal of comprehensive student experience is to provide a stellar academic and co-curricular experience that challenges and prepares our students for a complex, fast-paced, and diverse world.

Diversity

The goal of diversity is to foster an inclusive, collaborative and equity-minded teaching and learning environment that is reflective of the diverse students we serve and focused on student success and closing the opportunity gap.

Employee Satisfaction

The goal of employee satisfaction is for all employees to feel respected and valued for their contributions and empowered to advance the mission of the college.

NHCC Quick Facts - FY2023

All data on this page refers to credit enrollment in fiscal year 2023 unless otherwise noted.

Enrollment

7,121 unduplicated headcounts

2,893 FYE students

Minnesota State Strategic Framework Performance Measures

Minnesota State established a set of performance measures for all institutions. The focus of these measures is on Student Success. The accountability data is updated each May.

Student Success Accountability Metrics

Student Success - Accountability Metrics	
Developmental Education One-Year Completion Rate (All Students)	Second Fall Student Persistence and Completion Rate (Part Time Students)
Percent of students taking developmental reading, writing or math who completed all developmental coursework within one year.	Percent of a fall entering cohort of regular and transfer students who have been retained, graduated, or transferred by the second fall term following original fall enrollment.
Completion Rate (Part Time Students)	Licensure Exam Pass Rate (All Students)
Percent of an entering cohort of undergraduate regular and transfer students that has completed. Completion is measured as graduation or transfer by the end of the third spring after entry at the colleges.	Percent of a cohort of students or graduates that passed a state or national licensure examination. This measure is a weighted average pass rate and currently includes four licensing exams: nursing, teaching, peace officer, and radiography.
Related Employment Rate for Graduates (All Students)	
Percent of institution graduates who were available for related employment in the year after graduation who reported they were employed during the year after graduation in a job that was related to their program or major.	

The graphs on the next five pages illustrate NHCC performance compared with all community colleges in Minnesota State.

Developmental Education One-Year Completion Rate

Measure Definition: Percent of all students (full time and part time) who took developmental reading, writing, or math within two years of their fall entering cohort term, those who completed all developmental coursework within one year.

Source: Minnesota State Report: NorthHennepin_StudentSuccessReport_20230515.

Second Fall Student Persistence and Completion Rate

Measure Definition: Percent of a fall entering cohort of regular and transfer part time students who have been retained, graduated, or transferred by the second fall term following original fall enrollment.

Source: Minnesota State Report: NorthHennepin_StudentSuccessReport_20230515.

Completion Rate

Measure Definition: Percent of an entering cohort of part time undergraduate regular and transfer students that has completed. Completion is defined as graduation or transfer by the end of the third spring after entry at the colleges.

Source: Minnesota State Report: NorthHennepin_StudentSuccessReport_20230515.

Licensure Exam Pass Rate

Measure Definition: Percent of a cohort of full time and part time students or graduates that passed a state or national licensure examination. The measure is a weighted average pass rate, and the Minnesota State College rate is currently based on four licensing exams: nursing, teaching, peace officer, and radiography. At North Hennepin Community College this measure is focused only on Nursing.

Source: Minnesota State Report: NorthHennepin_StudentSuccessReport_20230515.

Related Employment Rate for Graduates

Measure Definition: The percent of institution graduates who were available for related employment in the year after graduation who reported that they were employed during the year after graduation in a job that was related to their program or major.

Source: Minnesota State Report: NorthHennepin_StudentSuccessReport_20230515.

Institution Performance Measures

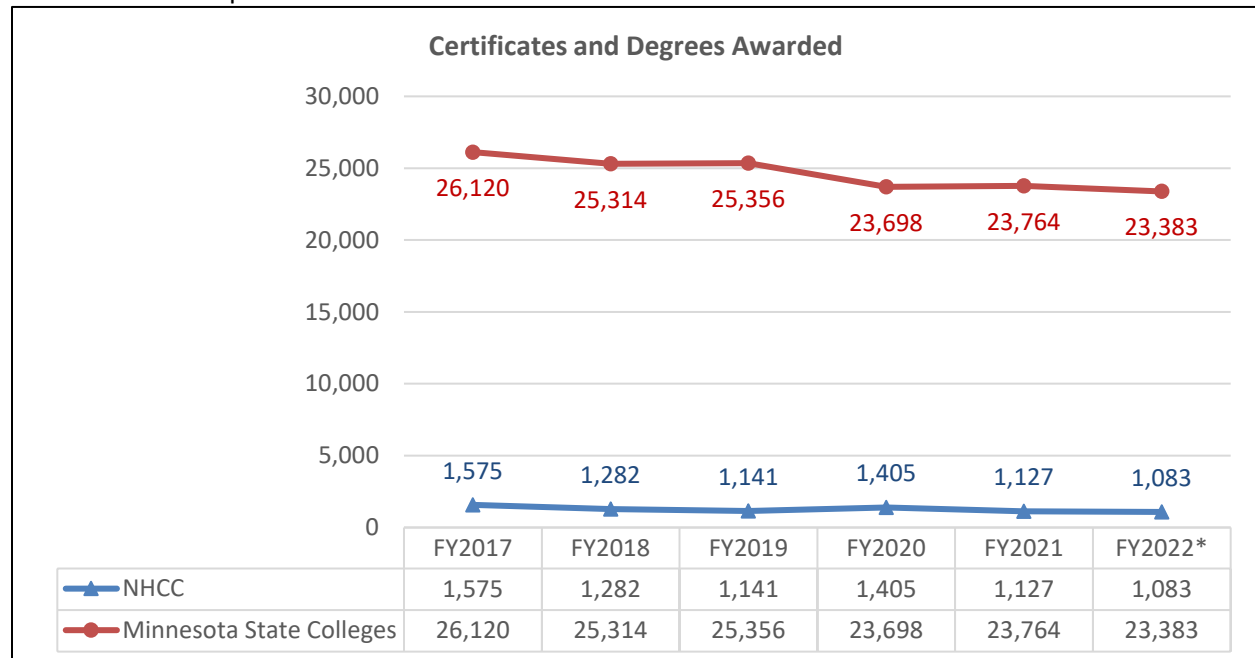

Minnesota State annually provides institutions a supplemental report of additional Institutional Performance Measures.

Institution Performance Measures	
Certificates and Degrees Awarded The number of certificates, diplomas and degrees awarded each fiscal year.	Composite Financial Index (CFI) Weighted composition of four financial measures: Primary Reserve Ratio, Viability Ratio, Return on Net Assets, and Operating Margin.
Student Diversity Students of color credit students as a percent of total credit headcount.	Facilities Condition Index (FCI) The dollar value of deferred maintenance as a proportion of facility replacement value at each college and university.
Employee Diversity Employees of color as a percent of total employees.	Space Utilization The Percent of available academic room time that is utilized for credit courses.
Institutional Support Expenses Institutional support expenses as a percent of total expenses.	Private Giving - Ratio of Dollars Raised to Dollars Invested A Ratio of funds raised by the Foundation to the net funds provided by the institution to the Foundation.
Instructional Cost Per FYE The ratio of the Actual to Expected Value of the Fully-allocated instructional expenditures per full-year equivalent enrollment.	Grants The Grant revenues received by the institution in the fiscal year.

The graphs on the next five pages illustrate NHCC performance compared with all colleges in Minnesota State.

Certificates and Degrees Awarded

The count of each award conferred. This is not a distinct count of graduates, as some graduates may have earned multiple awards.

*Latest year is preliminary

Enrollment

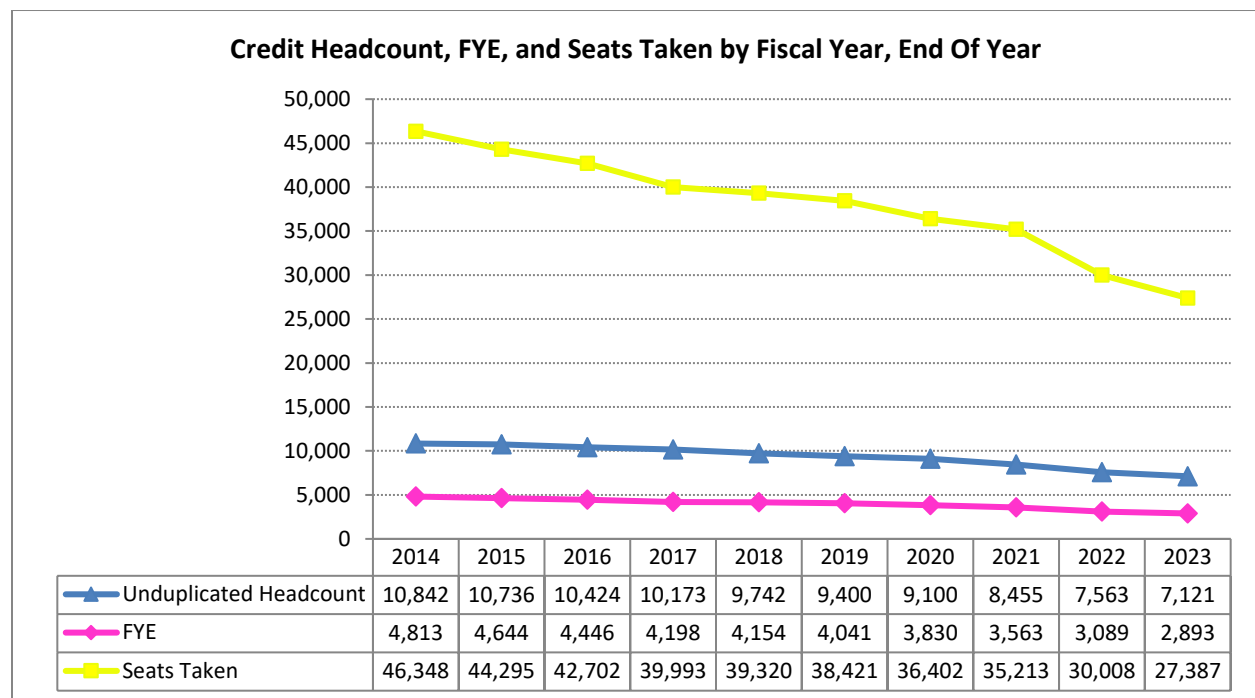

Enrollment Trends

Credit Students Enrollment by Fiscal Year: Headcount, FYE, and Seats Taken

Enrollment continues to decrease; however, the rate of decline has reduced. NHCC's unduplicated headcount for FY2023 (July 1, 2022-June 30, 2023) was 7,121 students. That was a 5.8 percent decrease from FY2022 compared with a 10.5 percent decrease between the 2021 and 2022 fiscal years.

The full-year equivalent (FYE, calculated by dividing total student credit hours by the number of credit hours constituting a full load, i.e., 30) declined by 6.3 percent from FY2022 to FY2023. The FY2022 FYE was 13.3 percent below the FY2021 level. FYE has declined 34.3 percent since FY2014.

The seats taken decreased by 8.7 percent in FY2023.

Source: Minnesota State REPL operational database.

Credit Students Enrollment by Semester: Headcount, FYE, and Seats Taken

Summer Semester

The unduplicated headcount in the summer of 2022 was 1,598, about 12.4 percent less than the previous summer. Between the summer of 2020 and 2021, the college lost 20.8 percent of students. The summer 2022 headcount was 47.7 percent below the high point in 2013.

The full-year equivalent (FYE) in summer 2022 was 270, a 16.0 percent decrease from the previous summer. Between the summer of 2020 and 2021, the college lost 19.1 percent of FYE. The summer 2022 FYE declined by 47.5 percent from the past decade's high end in 2013.

Seats taken also decreased by 14.5 percent from the previous summer. However, between the summer of 2020 and 2021, the college lost 20.5 percent of seats.

Source: Minnesota State REPL operational database.

Fall Semester

The unduplicated headcount in fall 2022 was 4,916, which decreased by 5.2 percent from the previous fall. Between fall 2020 and 2021, headcount dropped by 10.0 percent. The fall 2022 headcount is 35.2 percent below the past decade's high point in fall 2013.

The full-year equivalent (FYE) also declined in fall 2022 by 7.7 percent to 1,365 FYE. However, it is 4.4 points less than the FYE decreasing between the previous fall of 2021. The fall 2022 FYE is 38.0 percent lower than the past decade's high point in fall 2013.

The fall 2022 seats taken were 12,803, a 7.4 percent decrease from the previous fall and a 39.6 percent decrease from fall 2013, the maximum value over the last ten years.

Source: Minnesota State REPL operational database.

Spring Semester

The unduplicated headcount in spring 2023 was 4,621, a 3.9 percent decrease from the previous spring. Between spring 2021 and 2022, the college lost 10.1 percent of students. The unduplicated headcount in spring 2023 is 37.6 percent less than the decade's high point in spring 2014.

The full-year equivalent (FYE) also declined in spring 2023 by 2.4 percent from the previous spring. The previous spring, 2022, the college lost 13.1 percent, which is much more. The spring 2023 FYE is 39.9 percent lower than spring 2014 when FYE was the maximum in the past decade.

The seats in spring 2023 were 12,010, a 2.4 percent decrease from the previous spring. College lost 12.2 percent of seats between spring 2021 and 2022. Spring 2023 seats taken is 40.2 percent lower than spring 2014, the decade's high point.

Source: Minnesota State REPL operational database.

Noncredit Students Enrollment by Fiscal Year

Noncredit courses ended in FY2015. However, courses for community-based music groups and high school summer bridge programs were classified as noncredit courses in FY2018, while an appropriate classification was in development.

Enrollment by Level – College-Level and Developmental Courses

The number of college-level and developmental course seats declined between FY2014 and FY2023. This drop reflects a general downward trend in college enrollment. On the other hand, the proportion of college-level course seats has been increasing since FY2014 and was 97.2 percent in FY2023. Developmental course seats represented 2.8 percent of all seats taken during FY2023.

Source: Minnesota State REPL operational database.

In FY2023, the full-year equivalent (FYE) attributed to college-level courses decreased by 5.1 percent from the previous fiscal year. Despite the decline, the proportion of FYE obtained from college-level courses increased to 97.3 percent. Developmental course FYE declined by 45 FYE (or 6.8 percent) between FY2022 and FY2023. The proportion also declined and made up 2.7 percent in FY2023.

Number of Sections Offered by Type

The overall number of course sections offered at NHCC decreased from 1,522 to 1,468 or 3.5 percent between FY2022 and FY2023. The sections decreased by 28.3 percent compared to those provided in fiscal year 2014.

Course sections were predominantly offered online during FY2021 and FY2022 due to COVID-19 restrictions and college safety protocols. Online course sections made up 63.0 percent of all sections offered in FY2022. However, the number of online course sections dropped in FY2023 to 48.6 percent.

After the COVID limitations were partially lifted, Classroom and Hybrid/Blended course sections increased.

The percentage of Classroom sections increased by 11.9 from 22.1 the previous year to 34.0 in FY2023.

Similarly, the percentage of Hybrid/Blended course sections increased from 14.8 in FY2022 to 17.4 in FY2023, which is 2.6.

Source: Minnesota State REPL operational database.

Credits Offered by Type

NHCC offered 4,666 credits in FY2023, a 1.6 percent decrease from FY2022 total credits. Of these credits, 46.4 percent were online, 35.4 percent were provided in classrooms, and 18.2 percent were in a hybrid/blended fashion.

Credits were predominantly offered in an online format during FY2021 and FY2022 due to COVID-19 restrictions and college safety protocols.

Source: Minnesota State REPL operational database.

Seats Taken by Type

Since 2014, the total number of seats taken has decreased by 41.0 percent. The most dramatic shift occurred between FY2020 and FY2021 as the college faced the COVID-19 pandemic. In this period, the total seats taken decreased from 36,402 to 30,631, representing a 15.9 percent decline. Between FY2022 and FY2023, the total number of seats decreased by 4.8 percent from 28,711 to 27,330.

In FY2023, online seats dropped compared with FY2022, making up 58.0 percent of seats taken.

However, the classroom and hybrid/blended seats increased in two consecutive years, reaching 26.7 and 15.3 percent, respectively.

Source: Minnesota State REPL operational database.

FYE by Type

Historically, the majority of full-year equivalent (FYE) was achieved from courses in the classroom. The FYE generated by courses taught in the classroom in FY2023 comprised 28.2 percent of the total. This proportion declined to 16.9% due to COVID-19 in FY2021.

Online courses gradually grew as a proportion of the total FYE until FY2021, when they jumped to 81.8 percent as the college responded to the pandemic. Since FY2021, the proportion of online courses has decreased and was 55.7 percent in FY2023.

Enrollment in Classroom and Online Courses by Fall Term

In the fall of 2013, 62.9 percent of students took courses only in the classroom. This percentage has generally dropped slowly over the past ten years to 54.6 percent in the fall of 2019 and rapidly down to 14.3 percent in the fall of 2020 as part of the pandemic response. Since that time, there has been an increase of 17.8 percent in fall 2021 and 31.6 percent in fall 2022.

The proportion of students taking online classes increased to 65.5 percent during the pandemic and has reduced since that point, reaching 36.9 percent in fall 2022.

The percentage of students taking combined online and classroom courses increased to 31.5 in fall 2022.

Source: Minnesota State REPL operational database.

Average Class Size

The average class size over the past ten years has generally decreased from 23.0 in FY2014 to 18.8 in FY2023.

Students by Major

The following tables only include majors ranked as the students' primary majors. If a student has more than one primary major, the student is counted once for each fiscal year that the student was enrolled in credit courses and during which the major was current. This list includes only majors that were valid since FY2014. An empty cell means no students selected the corresponding major in that fiscal year.

Student Profile – Credit Students

New and Returning Students

In FY2023, 49.5 percent, or 3,569 North Hennepin students, were new to the college. Approximately half were continuing or returning students, and 0.3 percent were of unknown status.

Source: Minnesota State REPL operational database.

Source: Minnesota State REPL operational database.

Full-Time and Part-Time Status

Part-time students represent the vast majority of North Hennepin Community College enrollment across both fall and spring terms.

Admission Status

Undergraduate transfer and Undergraduate regular students represent the two most significant proportions of NHCC student enrollment in FY2023. They have 28.9 and 30.0 percent, respectively. The percentage of enrolled undergraduate regular students has stayed relatively the same since FY2017; the proportion of enrolled undergraduate transfer students declined from 37.8 in FY2017 to 28.9 in FY2023. The proportion of students representing PSEO admissions status has steadily grown over the past decade and reached 24.0 percent in FY2023.

Continue to the next page.

Note the scale is limited

Enrollment by Admission Status

Source: Minnesota State REPL operational database.

Gender

In FY2023, 59.4 percent of NHCC's students were female, and 39.9 percent were male.

Source: Minnesota State REPL operational database.

Source: Source: Minnesota State REPL operational database.

Race/Ethnicity

As illustrated below, North Hennepin's enrollment has become more diverse over the ten years. The population of BIPOC students increased from 43.8 percent in FY2014 to 54.6 percent in FY2023.

Source: Minnesota State REPL operational database.

Source: Minnesota State REPL operational database.

BIPOC students encompass six different race/ethnic groups. In FY2023, Black or African American students comprised the most significant portion of NHCC's students of color at 25.4 percent, followed by Asian students at 14.9 percent. The proportion of Hispanic students have generally grown since FY2014 and currently represents 8.4 percent. Students identifying multiple races hover at 5.5 percent of students. Native American and Native Hawaiian or Pacific Islander students represent less than one percent of the student body.

Source: Minnesota State REPL operational database

Notes: The data is based on primary race/ethnicity. *Two or more races was included as a category only in 2012.

Source: Minnesota State REPL operational database

Notes: The data is based on primary race/ethnicity. *Two or more races was included as a category only in 2012.

Age

NHCC enrolled 3,570 students age 18 to 25 in FY2023. Generally, the number of students age 26 or older has decreased across the decade. The proportion of the student body age 26 or older has declined since FY2014 from 42.4 percent of students to 24.4 percent in FY2023. Students 17 years and younger have increased since FY2014 from 5.9 to 25.3 percent of the student body in FY2023.

Disability Status

The percentage of North Hennepin students receiving services for a documented disability has varied since the fall of 2013 and, generally, increased from 5.0 percent to 6.2 percent in fall 2022.

Source: Minnesota State REPL operational database.

Veterans

In fall 2022, 88 students identified themselves as a veteran. That number represented a 20 percent decline from fall 2021 numbers.

In fall of 2022, veterans represented 1.8 percent of the student body. Overall, the historical trend went down from 3.2 percent in the fall 2013 to 1.8 percent in the fall 2022, having passed the maximum of 3.5 percent reached in the fall of 2016.

It is important to note that this only includes students who have self-identified as veterans on the admission application. Therefore, the actual number may be higher.

Source: Minnesota State REPL operational database.

Note: This represents self-reported data from the application for admission.

Low-Income Status/Pell Eligibility

Pell eligibility is often used to identify low-income students. In the FY2023 year, 2,175 students were Pell eligible, representing 30.5% of the student population. Non-Pell-eligible students made up 16.1% of the enrollment. The proportion of students whose Pell eligibility status is unknown was 53.4% in FY2023.

Source: Minnesota State REPL operational database.

Source: Minnesota State REPL operational database.

First Generation Status

First-generation status essentially describes the educational attainment of a student's parents or guardians. A first-generation student is a student whose parents or guardians did not go to college or did not complete a four-year degree.

As shown in the following few sections, state and federal definitions exist for the term *first generation*. The federal definition is that neither parent has a bachelor's degree, while the Minnesota definition is that neither parent received any post-secondary education (see Glossary for more information).

First Generation Federal Definition: Neither parent has a bachelor's degree

Between fiscal years 2014 and 2023, the percentage of students identified as meeting the federal first-generation definition decreased slightly from 60.4 percent to 50.3 percent. The number of students identified as meeting the federal first-generation definition in the fiscal year 2023 is 3585, the lowest over the last ten years.

Source: Minnesota State REPL operational database.

First Generation Minnesota Definition: Neither parent attended any college

The percentage of North Hennepin students who met the Minnesota definition for first-generation has consistently hovered between 21.3 and 24.3 percent over the past ten years. In the last three years, the percentage of first-generation students has increased from 21.3 to 22.1 percent.

Source: Minnesota State REPL operational database.

Underrepresented Status

A student is considered underrepresented if he or she fits into one or more of the following categories: (1) student of color, (2) low income, or (3) first generation.

Note that while there are two definitions of first generation, only the Minnesota definition is used for underrepresented (see Appendix for more information).

The percent of students who are underrepresented is calculated as a percent of all students.

Underrepresented – Minnesota Definition of First Generation

Of all students at North Hennepin, 64.3 percent met the underrepresented definition (e.g., student of color, low income, or Minnesota first generation) in fiscal year 2023. The proportion of North Hennepin students who meet the underrepresented definition has a small fluctuation from 65.6 percent in FY2014 to 64.3 percent in FY2023.

Source: Minnesota State REPL operational database.

Average Credit

Average Credit Load by Semester

The average credit load is the average number of credits that NHCC students register for each semester. The three graphs below present the average credit load for fall, spring, and summer semesters. The average credit load has remained relatively constant for full and part-time students each term across the timeframe from fall 2013 through fall 2022.

Source: Minnesota State REPL operational database.

Similarly, the average credit load has remained relatively constant for full and part-time students each term from spring 2014 through spring 2023 and summer 2013 through summer 2022.

Source: Minnesota State REPL operational database.

Source: Minnesota State REPL operational database.

Average Credit Load by Admission Status

Students carried an average of 8.4 credits in fall 2022. Looking more closely at fall 2022, undergrad regular status students carried the highest average credit load with 9.6 credits and transfer students carried 8.8 credits.

Students with an admission status of undergrad previous degree or undergrad unclassified historically enroll in fewer courses. Over the past ten years, there has been considerable variation in the average credit load for high school non-PSEO students. This fluctuation has happened because there is a small number of students, and this number fluctuates over the years. PSEO students reduced their average credit in the last three consecutive years from 8.3 to 7.2.

Source: Minnesota State REPL operational database.

Top Cities - Student Primary Residence

The cities listed below represent the top 25 cities where North Hennepin students live based on ten-year averages of fall student enrollment. Students living in these cities comprise 83 - 86 percent of the student population each fall. In fall 2022, about twenty-two percent of all students listed Brooklyn Park as their current city of residence.

Top 25 Cities - Student Residence

Top Sending High Schools

The following tables show the numbers of new first-time and PSEO students enrolled at NHCC each fall by high school attended, in descending order, for the top high schools that students come from as determined by ten-year student enrollment averages.

First-Time Students

In fall 2022, 57 new first-time students attended Park Center International Baccalaureate World High School, 54 attended Champlin Park High School, and 55 attended Osseo High School. Graduates from these three high schools have a consistent pattern of enrollment at NHCC who represented a total of 166 students in fall 2022. However, this number is 37 fewer students than the previous fall 2021.

PSEO Students

In fall 2022, Champlin Park High School had the most PSEO students attending North Hennepin with 241 students. Seven high schools had, on average, over 50 students enrolled as PSEO students at NHCC from fall 2013 through fall 2022. In fall 2022, 56 percent of total PSEO students were from the top five schools listed.

Academic Placement

The graphs below show the course placement of new students at different academic levels in the areas of Reading, English, Math, and English Language for Academic Purposes (EAP) through the administration of Accuplacer tests at NHCC. The placement results represent the highest placement of a student within the testing periods of a fiscal year when multiple tests were available. The percentages in the graphs are the proportion of students who placed at each academic level. The academic levels, from highest to lowest, are: Waived and College Level (equivalent), Developmental, EAP, and ABE (Adult Basic Education). Students classified as Waived are those provided other information for College Level placement, eliminating the need for Accuplacer testing. Not all areas have all placement levels. Any placement in a 1000+ level class (e.g. ENGL 1201) resulted in a classification of “college level.”

The data below only represents placements made by the NHCC Testing Center. Since FY2019, the Test Center has used different testing approaches. First, the Next Generation Accuplacer test was implemented mid FY2019. During the COVID-19 pandemic (FY2020), student academic placement was mainly based on school GPA. And finally, beginning FY2022, the Accuplacer tests were changed on the Multiple Measurement System. Therefore, the data sequences on the graphs below reflect the difference in testing methods and the initial training of students.

The Reading placements show growth in Developmental placements since 2019 and a decline in FY2021 by FY2023. The college-level placement has also declined since FY2019, becoming 5.7 percent in FY2022 and growing up to 30.7% in the next FY2023.

The proportion of students who provided other test scores or documentation waived for reading was almost the same in FY2019 and FY2020 and has increased in the following two fiscal years; however, it dropped in FY2023 to 56.2%.

Source: Minnesota State REPL operational database.

The English placements show a decline in Developmental placements since FY2019, along with a rise in College Level placements with a gap in FY2021.

Source: Minnesota State REPL operational database.

The Math placements also show a decline in Developmental placements since FY2019, with a concurrent rise in Waived. However, this tendency changed in FY2022, where developmental placement was raised almost two times and waived was dropped. In addition, college-level placement slowly decreased in the last four years, starting from 16.4 percent in FY2019 to 9.6 in FY2021; however, it increased by 18.5 percent in FY2022, jumped in FY2023 and ended at 53.3 percent.

Source: Minnesota State REPL operational database.

The EAP College Level test result of new college students has been almost the same for the first four years, ranging between 69 and 75 percent, and dropped in the last FY2023 to 15.9 percent. The developmental test level was zero percent for three consecutive years from FY2019 through FY2021 and quickly raised in FY2022 and FY2023, ending at 48.2 percent.

Student Engagement

Community College Survey of Student Engagement

The Community College Survey of Student Engagement (CCSSE) is a national survey focusing on student engagement, or the amount of time and energy that students invest in meaningful educational practices. The survey is overseen by the Center for Community College Student Engagement at the University of Texas at Austin.

At NHCC the survey is administered by Office of Institutional Research & Effectiveness every other spring from FY2007 to FY2019. The last survey was administered at spring 2022 due to COVID-19 limitations.

There are two variants of the CCSSE survey- paper and online. The paper survey is distributed in randomly selected courses (credit courses only), so the total sample size of students is about 600, which is needed to reduce sampling error and to ensure valid results. The online survey is offered to all current eligible students (that is, age 18+, not PSEO students, do not have ESL classes, not incarcerated students). In spring 2022, the college administered the survey online for the first time.

The final CCSSE report is calculated by the Center for Community College Student Engagement. The report includes five benchmarks calculated from conceptually related survey items to provide an overview of critical student behavior and institutional practice necessary to promote and support student engagement. The CCSSE benchmarks include active and collaborative learning, student effort, academic challenge, student-faculty interaction, and support for learners.

Benchmark scores are computed by averaging scores for survey items that comprise the benchmark. Data is weighted by full-time and part-time enrollment status to compensate for disproportionately large numbers of full-time students taking the survey.

Benchmark scores are standardized to compare with a national mean of 50 for all national wide community colleges. In this way standardized benchmark scores are useful for comparing one college to a comparison group of colleges. However, these scores are not appropriate to use for longitudinal analysis, at the same institution.

The graph below presents fiscal year 2022 survey benchmark scores by comparison group including NHCC, MNSCU-Minnesota State (Minnesota State Colleges and Universities), and top 10% of CCSSE (national wide community colleges and universities).

* The comparison group include NHCC.

Student Success

Student Outcomes

NOTE: The Student Outcomes, as a part of the FY2023 NHCC Fact Book, will be updated by the Office of Institutional Research and Effectiveness at the end of November following the updating of the Minnesota State REPL operational database.

Outcomes for All Students

Students are placed in cohorts as they enter Minnesota State to facilitate tracking student retention, transfer, graduation, and transfer graduation rates. Each cohort refers to the semester the student entered North Hennepin Community College. Cohorts are tracked each subsequent term and students who are retained, transferred, graduated, and transfer graduated are flagged as successes.

Note, the Transfer Graduated category was added in 2016.

Data in these tables are labeled to include both the year term that the student cohort entered the college and the census point when student status is measured such as 2nd fall or 3rd spring. For example, data reporting Status at the Beginning of Second Fall shows data indicating the status of students one year after these students entered the college (e.g., data for Fall 2019 entering cohort students displays the status of those same students at the beginning of Fall 2020). This measure allows the college to monitor student persistence of its entering cohorts into their second year. Another example, data reporting Status at the End of Third Spring shows data indicating the status of entering groups of students at the end of the third year since they entered the college. This measure focuses on a completion definition used federally which allows students 150 percent of the expected time to complete an Associates' degree.

All averages in the following sections are calculated from the five most recent cohorts that have advanced to the third spring since they entered the college. The averages are calculated by using student status for the beginning of First Spring, Second Fall, Second Spring, Third Fall, and Third Spring. These moving averages presently include entering cohorts from fall 2015 through fall 2019. However, individual cohort values are provided for Second Fall and Third Spring over the last ten years of available data.

Given North Hennepin's strong and growing contingent of part-time students, outcomes data are provided for part-time as well as full-time students in these graphics.

Data is also utilized in several of the Minnesota State Strategic Framework Metrics.

Average Retention, Transfer, Graduation, Transfer Graduated, and Success Rates

The graphs below present an average of students' status for the five most recent consecutive years, 2015 through 2019. The entering cohort student status is for the beginning of the first spring, second fall, second spring, third fall and third spring. Cohorts form at the beginning of the first fall.

Source: Minnesota State REPL operational database.

Note: All averages are calculated from the five most recent cohorts that have advanced to the third spring since entering the college. The entering cohort student status is for the beginning of First Spring through the beginning of the Third Spring.

Outcomes by Race/Ethnicity

Average Retention, Transfer, Graduation, Transfer Graduated and Success Rates by Race/Ethnicity

Average Retention Rates

Source: Minnesota State REPL operational database.

Note: All averages are calculated from the five most recent cohorts that have advanced to the third spring since entering the college. The entering cohort student status is for the beginning of First Spring through the beginning of the Third Spring.

Source: Minnesota State REPL operational database.

Note: All averages are calculated from the five most recent cohorts that have advanced to the third spring since entering the college. The entering cohort student status is for the beginning of First Spring through the beginning of the Third Spring.

Average Transfer Rates

Transfer rates for full-time students are highest among Black/African American students.

Source: Minnesota State REPL operational database.

Note: All averages are calculated from the five most recent cohorts that have advanced to the third spring since entering the college. The entering cohort student status is for the beginning of First Spring through the beginning of the Third Spring.

Source: Minnesota State REPL operational database.

Note: All averages are calculated from the five most recent cohorts that have advanced to the third spring since entering the college. The entering cohort student status is for the beginning of First Spring through the beginning of the Third Spring.

Average Graduation Rates

Graduation rates by second fall and beyond for both full- and part-time students are highest among white students, and lowest among Black/African American students.

Source: Minnesota State REPL operational database.

Note: All averages are calculated from the five most recent cohorts that have advanced to the third spring since entering the college. The entering cohort student status is for the beginning of First Spring through the beginning of the Third Spring.

Source: Minnesota State REPL operational database.

Note: All averages are calculated from the five most recent cohorts that have advanced to the third spring since entering the college. The entering cohort student status is for the beginning of First Spring through the beginning of the Third Spring.

Average Transfer Graduated Rates

Transfer Graduated rates by third fall and beyond are very low overall ($\leq 1.5\%$ for full-time students and $\leq 2.9\%$ for part-time students). They are highest among White full-time students, equally low among the other ethnicities for full-time students, and lowest among Hispanic for part-time students.

Source: Minnesota State REPL operational database.

Note: All averages are calculated from the five most recent cohorts that have advanced to the third spring since entering the college. The entering cohort student status is for the beginning of First Spring through the beginning of the Third Spring.

Source: Minnesota State REPL operational database.

Note: All averages are calculated from the five most recent cohorts that have advanced to the third spring since entering the college. The entering cohort student status is for the beginning of First Spring through the beginning of the Third Spring.

Average Success Rates

The success rate is the percentage of students who have either been retained, transferred, graduated or transfer graduated. At the first spring, the success rates are highest among Asian students and lowest among Black/African students for full-time students.

Source: Minnesota State REPL operational database.

Note: All averages are calculated from the five most recent cohorts that have advanced to the third spring since entering the college. The entering cohort student status is for the beginning of First Spring through the beginning of the Third Spring.

Changes over Time: Status at the Beginning of Second Fall by Race/Ethnicity

The graphs below are broken out by race/ethnicity and show how retention, transfer, graduation, transfer graduated, and success rates at the second fall (i.e. after one year) compare for the past ten student cohorts, from the cohort entering in fall 2011 to the cohort entering in fall 2020. Caution should be used in interpreting results for some student groups, as the cohort sizes can be relatively small (<50).

Asian Students

Changes over Time: Status at the End of Third Spring by Race/Ethnicity

The graphs below are broken out by race/ethnicity and full-time/part-time status and show how retention, transfer, graduation, transfer graduated, and success rates at third spring (i.e. after three years) compare for the past ten student cohorts, from the cohort entering in fall 2010 to the cohort entering in fall 2019.

Asian Students

Success rates for Asian students range from 60.5 percent to 72.1 percent across the full-time cohorts and between 43.1 and 67.7 percent for part-time cohorts.

Source: Minnesota State REPL operational database

Source: Minnesota State REPL operational database

Black/African American Students

Success rates for Black/African American full-time students range from 56.9 percent to 68.0 percent across the cohorts. Part-time students ranged from 41.7 percent to 59.4 percent.

Source: Minnesota State REPL operational database

Source: Minnesota State REPL operational database

Hispanic Students

Success rates for Hispanic students ranged from 49.4 percent to 68.4 percent across the full-time cohorts and the contributing measures have been more inconstant in part due to smaller numbers of students. Part-time student success rates range from 32.5 to 57.3 percent across the cohorts.

Source: Minnesota State REPL operational database

Source: Minnesota State REPL operational database

White Students

Success rates for white students range from 62.5 percent to 68.4 percent across the full-time cohorts and from 51.7 to 61.8 percent across the part-time cohorts. Historically, the success rate has trended consistently, however there has been more recent fluctuation in the factors contributing to the success measurement (i.e., retention, transfer, graduation, and transfer graduated).

Underrepresented Student Second Fall and Third Spring Persistence and Completion Rates

Underrepresented students have at least one of the following characteristics: (1) student of color, (2) low income, and/or (3) first generation. The persistence and completion rate at second fall shows the percent of students who are either persisting at North Hennepin, have transferred to another institution, have graduated, or transfer graduated by the beginning of the cohort's second fall semester. This measure includes only full-time regular and transfer students who are underrepresented and entered the college in the fall semester. Comparison data is provided as an average for all Minnesota State two-year community colleges.

Two graphs below show underrepresented student persistence and completion rate at the beginning of second fall and at the end of third spring.

Status of Graduates within One Year of Graduation by Program

The table below shows employment status of NHCC graduates after one year of graduation. All information is gathered by using the MN State Graduate Follow-Up Survey distributed to all graduated students inside of one fiscal year. Survey responses were provided either by graduates or individuals who know the graduates and their employment relatedness to program of study.

The results below represent students from the 2021-22 graduating class with suppression applied:

- For counts: If counts are <10 then "<10" is displayed instead of the counts.
- For %'s: If counts are <10 then "*" is displayed instead of percent.

Source: Minnesota State Graduate Follow-up Survey

NOTES:

- 1) Graduates or individuals who know the graduates provided this information, including the relatedness of employment to the program of study.
- 2) Related Employment Part-time includes graduates who reported related employment but did not indicate the number of hours worked per week.
- 3) Unavailability for Employment includes graduates who chose not to seek work, were unable to work, or were international students who returned to their homelands.
- 4) Status Unknown includes graduates who could not be located or did not respond to requests for information.
- 5) Categories of employment can include some graduates who also reported continuing education but indicated that employment was their preferred classification.
- 6) Continuing Education can include some graduates who also reported employment but indicated that continuing education was their preferred classification.

- 7) Related Employment Rate has calculated as Total Related Work as a percent of Total Available for Related Employment.
- 8) Total Related Work is a sum of Related Work Full-time and Related Work Part-time (both come from the survey). Total Available for Related Employment is the sum of Related Work (FT or PT), Available for Work but Unemployed and Unrelated Work Seeking Related.
- 9) Sums of percentages might not equal total percentages due to rounding.
- 10) N/A ("Not Applicable") is displayed when there are no graduates available for Related Employment.
- 11) **- This program is designed as a transfer degree to prepare students for further education and not necessarily employment.

Awards Granted

NHCC awarded 229 AS degrees, 226 AA degrees, and 9 AFA degrees in FY2023. Additionally, 47 AAS degrees and 368 certificates were granted in FY2023 (data as of 10/6/2023).

Source: Minnesota State REPL operational database.

Note: Data as of 10/6/2023.

In the tables below, degrees and certificates by program are broken out for the past ten years.

Financial Aid Awarded

Total Financial Aid Recipients

Financial aid awarded to students includes Pell grants, Minnesota State grants, and subsidized and unsubsidized Stafford loans. The details of these awards are described on the following pages.

The Financial Aid charts below show the total number of financial aid recipients and average aid by Award Year. The Award Year begins with the fall term and ends the following summer. It is named for the calendar year in which the award year ends. For example, Award Year 2023 (AY2023) includes fall 2022, spring 2023 and summer 2023.

The total number of financial aid recipients was 5,116 in AY2023, a 15 percent decrease from the previous AY2022. The average aid per student increased to \$4,528 in AY2023.

MN State Colleges and Universities, Financial Aid System, FA Student Status Summary Report, Report ID FA0040CP.

Pell Grants

Since AY2014, recipients' numbers and dollar amounts have decreased by 58 and 51 percent, respectively. The economy, changes in eligibility criteria, and student demographics have all contributed to the overall decrease in Pell grants. About 1,800 students received a Pell Grant with \$5.93 million distributed in AY2023.

Source: Minnesota State Colleges and Universities, Financial Aid System, Award Summary for Award Year 2022, Report ID FA0012CP

Minnesota State Grants

Over 1,600 students received MN State grants in the award year 2023, or 5 percent less than AY2022. The total amount distributed in Minnesota state grants increased by 7 percent. The unduplicated headcount of students receiving MN State grants decreased by 50 percent between AY2014 and AY2023. However, at the same time frame, the total MN State grant dollars awarded each year decreased by only 16 percent.

The economy, the level of state appropriations, changes in eligibility criteria, and changing student demographics have each contributed to the changes in MN State grants. The drop in number and amount from AY2015 to AY2016 is primarily the result of a declining average credit lead, a general increase in the percentage of part-time students, and an overall decrease in enrollment.

Source: Minnesota State Colleges and Universities, Financial Aid System, Award Summary for Award Year 2022, Report ID FA0012CP

Subsidized Stafford Loan

In AY2023, 725 students received subsidized Stafford loans. The total dollars distributed was \$2.12 million. These numbers are 10 and 12 percent, respectively, less than in AY2022.

The number of students and the dollar amount distributed for subsidized Stafford loans has steadily decreased since AY2014. In AY2023, they dropped 10 percent and 12 percent, respectively, compared with AY2022.

Source: Minnesota State Colleges and Universities, Financial Aid System, Award Summary for Award Year 2022, Report ID FA0012CP

Unsubsidized Stafford Loan

In the award year 2023, 754 students received unsubsidized Stafford loans totaling \$3.06 million. This represented a 9 percent decline from the previous award year. The total dollar amount distributed also declined by 4 percent from AY2022.

Source: Minnesota State Colleges and Universities, Financial Aid System, Award Summary for Award Year 2022, Report ID FA0012CP

Federal, State, and Institutional Work-Study

The following figures include federal, state, and institutional work-study recipients and amounts awarded. The number of all work-study recipients decreased 66 percent between AY2014 and AY2023. The total work-study award amount has decreased by 44 percent between AY2014 and AY2023. As shown below, there has been some variation over the past ten years, with increases and decreases in the amount of work-study and the number of recipients generally keeping pace with each other until AY2023.

Unfortunately, the COVID-19 pandemic was a reason for the sharp drop in the total work-study award amount and the number of recipients in AY2020. However, both amounts awarded, and the number of recipients increase between AY2020 and AY2023.

Glossary

Academic year (AY) – The academic year starts with the summer semester and ends with the following spring session, being equivalent to the fiscal year. It is named for the calendar year in which the academic year ends.

Adult learner – Students who are 26 years old or older as of September 1 of the academic or fiscal year. It should be noted that this term is defined differently by different organizations and sources. Also known as a non-traditional student.

Award year (AY) – The award year starts with the fall session and ends with the following summer semester. It is named for the calendar year in which the award year ends.

Calendar year (CY) – The calendar year starts with the spring session and ends with the following fall semester.

Continuing student – A continuing student has attempted credits at NHCC previous to the semester of focus.

Duplicated headcount – The sum of the unique enrollment each semester. If a student is enrolled during two or more semesters, he or she is counted multiple times.

EAP – English Language for Academic Purposes. Previously known as English As a Second Language.

Fill Rate – The total number of enrolled students divided by the sum of the maximum capacity of all courses in a program.

First generation – In general, first generation refers to whether a student is the first generation in his or her family to attend college. The federal definition is that neither parent has a bachelor's degree. This is the definition used by the federal government in funding many programs related to higher education; it is also the commonly accepted definition for private foundations and other organizations focused on college access. The Minnesota definition of first generation is that neither parent received any postsecondary education. This definition was established by the Minnesota Legislature and can be found in Laws of Minnesota 2003, Chapter 133, Article 1, Section 3, Subd. 3. This definition is commonly used by Minnesota State.

Fiscal year (FY) – The fiscal year starts with the summer session and ends with the following spring semester. It is named for the calendar year in which the fiscal year ends.

Full time student – Full time status is defined as registered for 12 or more credits during a semester.

FYE – The number of full year equivalent students. This is calculated by dividing total student credit hours by the number of credit hours constituting a full load. The Minnesota State full load is defined as 30 credit hours. The number of credits constituting a full load may be defined differently by different organizations and sources.

Graduation rate – Number of students who have received a degree or certificate divided by total number of students in cohort. The Minnesota State Accountability Dashboard measures the student's status at the beginning of the term. IPEDS measures graduation as of August 31 three years after the fall entry date.

High school non-PSEO –The student is currently enrolled at both a high school (and homeschool) and NHCC and is not part of the PSEO program. An admission status.

Hybrid course – A hybrid course is a course that is web-enhanced with limited seat time. A significant portion of the course is delivered via the web. On-campus meeting time is less than for fully on-campus sections of the course. Also known as a blended or web-enhanced course.

Low income – For data shown here, low income is defined as Pell eligible. However, there are other definitions of low income that may be used for specific grants or other projects.

New student – A new student has not attempted credits at NHCC previous to the semester of focus. When calculating the number of new students in a fall semester, this includes students who were new in the summer semester and also enrolled in the fall semester.

Non-resident alien – A person who is not a US Citizen and does not have a Green Card. Typically, this refers to international students whose citizenship status allows them to live in the US temporarily.

Non-traditional student – See *adult learner*.

Online course – An online course is a course that is delivered entirely or predominantly online. Student participation may include synchronous or asynchronous activities which only require a cohort meeting at the beginning or once during the course. Also known as an internet course.

Part time student – Defined as registered for less than 12 credits in a given fall, spring, or summer term.

Pell eligible – The student is eligible to receive a Pell grant, a type of federal grant targeted toward students from low income families. Pell eligibility is often used to indicate that the student is from a low-income family.

PSEO student – A PSEO student is a high school junior or senior enrolled at NHCC through the Post-Secondary Enrollment Options (PSEO) program. PSEO is a statewide program through which high achieving high school students receive both high school and college credit for courses completed at colleges.

Retention rate – Number of students who registered for a semester divided by total number of students in a defined cohort. This refers to the student's status at the beginning of the term for the Minnesota State Accountability Dashboard.

Student of color – A student who identifies his or her race/ethnicity as Black or African American, Asian, Pacific Islander, Native American, or Hispanic. Non-resident aliens are excluded from this category regardless of race/ethnicity.

Success rate – The sum of the number of students in the entering cohort who have graduated, transferred, transfer graduated, or are retained at the college during the specified term. On bar graphs, the difference between 100 percent and the sum of the retained, graduated, transferred, and transfer graduated percentages represents the students who were neither retained, transferred, nor graduated. This refers to the student’s status at the beginning of the term for the Minnesota State Accountability Dashboard.

Traditional age students – Students between the ages of 18 and 25 years old as of September 1 of the academic or fiscal year. It should be noted that this term is defined differently by organizations and sources.

Traditional course – A traditional course is course in which all instruction is face to face in a classroom setting. The internet and/or the instructional management system (D2L) might be required for components of the course (e.g. grades, assignments, homework). Also known as a “classroom” course.

Transfer rate – Number of students enrolled at another post-secondary institution divided by total number of students in a defined cohort. The Minnesota State Accountability Dashboard measures the student’s status at the beginning of the term. IPEDS measures transfer as of August 31 three years after the fall entry date.

Transfer-Graduated – Students who previously transferred and subsequently graduated from another institution during the current or previous terms as indicated by the National Student Clearinghouse or system enrollment data.

Undergrad previous degree – Student has earned a previous post-secondary degree of any type.

Undergrad regular – First time student, or a student who has not attended college previously.

Undergrad transfer – Student has completed coursework at another postsecondary institution previously.

Undergrad unclassified – Non-degree-seeking student.

Underrepresented – A student is considered underrepresented if he or she belongs to a category of students that is disproportionately low in comparison to an expected population. There are both Federal and Minnesota State system definitions of underrepresented students. However, only the Minnesota State definition is used for data in this report. According to this definition, a student is considered underrepresented if they into at least one of the following categories: (1) student of color; (2) low income; or (3) first generation. For data shown here, low income is defined as Pell eligible. However, there are other definitions of low income that may be used for specific grants or other projects.

Unduplicated headcount – A count of how many unique students were enrolled at the college over the course of the year. Each student is counted once.
